SKILLS

Programming Languages: JavaScript, TypeScript, Python, Java

Frameworks: Angular, Vue.js, Django, Express

Databases: PostgreSQL, SQL Server, MySQL, MongoDB

Others: CSS, Bootstrap, Tailwind CSS, ES6, Git

ABOUT ME

Hi, I'm Luis, a dedicated Full Stack Web Developer with +2 years of experience in crafting and maintaining robust web applications. My core expertise lies in front-end development, backed by strong skills in Angular, TypeScript, JavaScript, Express, RxJS, CSS, Tailwind CSS.

I am recognized for my assertive communication skills and my ability to thrive in team settings. Commitment to excellence is my mantra, with a keen eye for detail ensuring the quality of my projects. I am driven by a passion for creating solutions that add value and enhance user experiences. Continuously seeking opportunities to learn and acquire new skills, I am eager to contribute and grow in dynamic and innovative environments.

WORK HISTORY

Tekton   **June 2022 - Present**
Software Engineer

Project: [YEVO (Finance App for entrepreneurs)](#)

As a key member of the engineering team, I focused on both development and maintenance aspects of the Finance App, leveraging agile methodologies and integrating various endpoints and technologies to enhance functionality and user experience.

- Development of reusable Angular components for code efficiency and maintainability.
- Advanced use of RxJS for state management and handling asynchronous events.
- Creation of custom Angular pipes for specific data transformations.
- Implementation of routing and navigation to enhance user experience.
- Managing application state with Angular services.
- Optimizing Angular application performance and managing lazy loading of modules.
- Developed and modified endpoints across various artifacts using Spring Boot.
- Managed SQL Server database operations to implement new features.
- Utilized ETL tools for efficient mass data loading into the database.
- Created Azure functions and integrated them with Spring Boot for task management using CRON jobs.

EDUCATION

- Systems and Informatics Engineering - Universidad Tecnológica de Perú
- Intensive Full-stack Web Development Education Program (full-time, 6 months) - Codeable.
